SKILLS SUMMARY

HTML	<div><div></div></div>	70%
CSS	<div><div></div></div>	70%
JS	<div><div></div></div>	60%
REACT	<div><div></div></div>	60%
REACT ROUTER	<div><div></div></div>	15%

REACT REDUX-RTK	<div><div></div></div>	10%
MATERIAL UI	<div><div></div></div>	30%
STYLED COMPONENTS	<div><div></div></div>	10%
TAILWIND CSS	<div><div></div></div>	40%

EXPERIENCE

Some Demo Projects I built :

IMDB PARTIALLY CLONED

Tech Stack: React, React Router, RTK Query, Material UI, Styled Component

Project Goals:

I partially cloned the IMDB website just to experiment with the things I have learned so far

I enjoyed so much using these libraries and tools because I could build the same project in half the time

WEBSITE APP-GYM

Tech Stack: Html, Css, Javascript

Project Goals:

I wanted to create a smooth, good-looking website application that could show what the prototype gym offers as a company and a section dedicated to the application itself.

RESTAURANT WEBSITE

Tech Stack: Html, Css, Javascript

Project Goals:

The goal was to copy a website from a figma file as closely as possible

EDUCATION

2014 - High School - Electronics and telecommunications industries (some teaching of programming)
